60303

(PERMIT TERMS CONTINUED)

The total combined diversion rate of Permits 54759, 54760, 54761, 54763, 56406, 56407, 56578, 56579, 56580, 56581, 56582, 56583, 56584, 56585, 56586, 56951, 57103, 57104, 58385, 58550, 60288, 60289, 60290, 60291, 60292, 60293, 60294, 60295, 60296, 60297, 60298, 60300, 60301, 60302, 60303, 60685 and 61238-T will not exceed 33,460 gallons per minute or 74.56 cubic feet per second for mining, milling and dewatering purposes.

The total volume of water allowed to be diverted under the above mentioned

permits and for the same purposes will not exceed 53,800 acre-feet annually.

The total combined consumptive duty for mining and milling purposes under the above permits and any changes of these permits will not exceed 3,144 acre-feet annually.

All water diverted but not used for mining or milling purposes will be discharged to the Iron Point Relief Canal via the aqueduct completed in June, 1993.

All water diverted will be measured and reported to the State Engineer on a monthly basis. The report will include the amount of water diverted from each well, the amount of water used for mining and milling purposes, and the amount discharged to the Iron Point Relief Canal. This report will be submitted to the State Engineer within 15 days of the last day of the preceding month.

This permit is issued subject to the "Lone Tree Mining, Inc. Unified Monitoring

Plan, March 27, 1993".

The State Engineer will retain the right to require additional monitoring over and above the monitoring required in the monitoring plan mentioned and also will retain the right to seek other disposal options of water discharged to the Iron Point Relief Canal.

The permittee, on a schedule acceptable to the State Engineer, shall prepare and present an update on the activities of the mine and the monitoring plan on a periodic basis, but not less than two times a year.
